DETAILED ACTION

1. This communication is in response to amendment filed 4/26/04.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/26/04 has been entered.

Response to Amendment

3. claims 1, 5 and 6 have been amended. Presently claims 1-6 are pending and have been examined.

4. In response to the amendment rejections of claims under 35 USC 101 and 112(first) have been withdrawn. However, the claims are defective with respect to 112(second) as explained in the following paragraphs.

Statute Cited in Prior Action

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

5. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Independent claims 1 and 6 (and applicable dependent claims) recite limitations "...to determine an efficient frontier line on which optimal portfolios will exist.." and "selecting a range of the optimal portfolios with the computer system...". However, the claim fails to positively recite the manipulative step of "determining an efficient frontier line..". Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: determining by the computer system an efficient frontier line on which optimal portfolios exists in two-dimensional space, using the VaR calculator and the optimization process.

Explanation: the claim recites the process step of using the VaR calculator and the optimization procedure, however, it fails to positively and definitively recite the step of determination, since, the later step is only

Art Unit: 3624

recited only as an objective of the using step. This also causes the limitation "optimal portfolios" to be indefinite since it is a part of the determining function which is not recited in the claim. It is suggested that the claim be amended to recite the determining step as discussed before.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

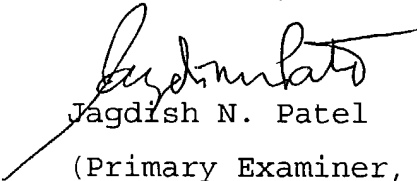

US Pat. 5,812,988 discloses a method and system for jointly estimating cash flows, simulated returns, risk measures and present values for a plurality of assets.
